## NAME
cs_show_supportconfig − collect information from supportconfig files

## SYNOPSIS
**cs_show_supportconfig** *OPTION*
**cs_show_supportconfig --generic** *DIR*
**cs_show_supportconfig --function** *DIR FUNC* ...

## DESCRIPTION
**cs_show_supportconfig** collects information from supportconfig files. This version should work for supportconfig files from for SLES12. The supportconfig archive has to be extracted.

Note: This script does not try to replace the experienced user by artificial intelligence. It just is aimed to help users focussing on the more interesting pieces of supportconfig archives.

## OPTIONS

**--help**
    show help.

**--version**
    show version.

**--listfunc**
    show available functions.

**--generic**
    show info from all generic functions.

**--function**
    show info from selected function.

## EXIT STATUS
**0** Successful program execution.
**>0** Usage, syntax or execution errors.

## EXAMPLES
# tar --no-same-owner -xjf nts_node0_111010_1101.tbz
        extract a supportconfig archive as youself.

# cs_show_supportconfig -g nts_node0_111010_1101
        show generic infos for extracted supportconfig archive nts_node0_111010_1101.

# cs_show_supportconfig -f nts_node0_111010_1101 chk_overview chk_veritas
        show overview info, than search for Veritas Cluster Services.

# cs_show_supportconfig -f nts_node0_111010_1101 chk_sap chk_saphana
        search for SAP HANA related informations.

## FILES
/usr/sbin/cs_show_supportconfig
                the program itself.

/etc/ClusterTools2/cs_show_supportconfig
                the main configuration.

/etc/ClusterTools2/cs_show_error_patterns
                the default error patterns.

/etc/ClusterTools2/cs_prepare_esxvm
                    the VMware related default patterns.

**BUGS**

The error summary depends on supportconfig's messages.txt file which contains only a short trunc of the real messages file. To fix this, supportconfig could be called with the -I <line_count> option.

Some information from SLES12 is still not evaluated.

Feedback is welcome, please use the project page at
